

MSDC 2009/2010 Wave 2 Winter Meet

Congratulation to MSDC's Wave 2 swimmers!! What a weekend for success. The 2009-2010 first swim meet of the season was an exciting and exhilarating experience for me and the coaches. This could have only been a fraction of what the experience was like for the swimmers and parents. We had a lot of rookies to the club this year that did extremely well at their first every swim meet as did we have a great improvement in speed and technique from our veteran swimmers. All in all each and every swimmer put on an exciting performance. There wasn't one heat of swimmers that didn't have their teams cheering. The sportsmanship that flooded the deck through team cheers and representing their team by the vibrant colours that were displayed in a variety of ways, really made this meet different from the rest. I congratulate all the swimmers for all their swims the hard work has really paid off.

I would like to thank the parents that came out to support their swimmer(s) by volunteering to help run the meet as well by supporting their team through the purchase of a t-shirt. If it were not for these volunteers the meet would not have ran as smoothly as it did. Thank you again for all your support and dedication.

I would like to thank the MSSAC technical committed that gave up their Sunday to come help us run a fast and efficient swim meet for these early year MSSAC hopefuls. Without them we would not have the organization and efficiency that we do with results and timing nor would the results be available for viewing as they are right now on our website.

To the coaches I would also like to say I was overwhelmed by how hard the coaches worked to prepare team cheers and organizing the visuals that represented their teams. Way to go coaches for the hard work you put into the practices and how it was noticed through the great racing that took place. Keep up the great work and let's continue to work on the FUNdamentals of this sport.

I look forward to seeing everyone again at our last swim meet that will be help on Sunday May 16th at the University of Toronto Mississauga Campus. Further details and information will be posted on our website closer to the date.

Thank you again for everyone's hard work and dedication.

Sincerely,

Meghan McDonnell
